

HKJ10 Series

Gearless Pressure
Gauge

Name: HKJ10 Series

Main feature

Special pressure transmission structure, no gears, drop resistance, vibration resistance.

Specification:

1. Dial Size: DN40, DN50, DN63, DN100
2. Pressure Element: Cooper alloy, diaphragm type.
3. Housing: Black-painted steel
4. Ring: Black-painted steel
5. Socket: Cooper alloy 1/8", 1/4", 3/8", 1/2" available as options.
6. Protector rubber boot as option.

Pressure range:

- -1bar(vac); 0-1bar(15psi); 0-2bar(30psi); 0-4bar(60psi);
0-7bar(100psi); 0-11bar(160psi); 0-14bar(200psi);
0-21bar(0-300psi)
- Lower mounting: DN40, DN50, DN63, DN100
- Center back mounting: DN40, DN50, DN63
